### GPS Has Camera

GPS tracking is the primary way to track a vehicle, but a new device from the University of California, Berkeley, can also track a vehicle's location and provide a visual record of the vehicle's location. The device, called the GPS camera, is a small, portable device that can be attached to a vehicle's GPS system. It can take photos of the vehicle's location and provide a visual record of the vehicle's location. The device is currently being tested in a field trial in Berkeley, California.
