1. Justification for the year plan:

The year plan is designed to cover the entire syllabus of the subject in a systematic and sequential manner. It is based on the curriculum framework provided by the board and is intended to ensure that the students acquire the necessary knowledge and skills in a timely and effective manner.

The year plan is designed to cover the entire syllabus of the subject in a systematic and sequential manner. It is based on the curriculum framework provided by the board and is intended to ensure that the students acquire the necessary knowledge and skills in a timely and effective manner. The plan is divided into seven units, each covering a specific topic. The units are: 1. Electrostatics, 2. Current Electricity, 3. Magnetism and Matter, 4. Electromagnetic Induction and AC Circuits, 5. Ray Optics and Optical Instruments, 6. Wave Optics, and 7. Modern Physics. The plan is designed to ensure that the students acquire the necessary knowledge and skills in a timely and effective manner.

THEORY OF EDUCATION (teaching)

QUESTION	ANSWER
1. How do you define 'teaching'?	Teaching is the professional activity of influencing the learning of others by providing, selecting and presenting learning materials and/or experiences in a structured and systematic way.
2. What are the main components of a lesson plan?	A lesson plan typically consists of: objectives, materials, methods, and evaluation.
3. How do you assess student learning?	Assessment can be formative (ongoing) or summative (end-of-term). Formative assessment includes observations, self-reflection, and peer review. Summative assessment includes tests, exams, and assignments.
4. How do you handle classroom management?	Effective classroom management involves setting clear rules and expectations from the start, using a variety of strategies to engage students, and addressing behavioral issues consistently and fairly.
5. How do you differentiate instruction?	Differentiation involves adjusting the content, process, and product of learning to meet the individual needs of all students. This can be achieved through flexible grouping, varied assignments, and targeted support.
6. How do you collaborate with parents and the community?	Collaboration is essential for a student's success. Teachers should communicate regularly with parents, share resources, and involve the community in educational activities.

The Green New Deal is a legislative and policy agenda that would, among other things, create millions of good jobs, reduce the climate crisis, and address the root causes of economic inequality.

		Date	
<p>1. Establish a Green New Deal Commission to study and report on the feasibility of implementing a Green New Deal. The commission should include representatives from the public, private sector, and academia. It should release its findings and recommendations by the end of 2023.</p> <p>2. Establish a Green New Deal Task Force to develop a detailed plan for implementing a Green New Deal. The task force should include representatives from the public, private sector, and academia. It should release its findings and recommendations by the end of 2024.</p> <p>3. Establish a Green New Deal Working Group to coordinate implementation of the Green New Deal. The working group should include representatives from the public, private sector, and academia. It should release its findings and recommendations by the end of 2025.</p> <p>4. Establish a Green New Deal Implementation Plan. The plan should outline the steps for implementing a Green New Deal, including the creation of a Green New Deal fund, the establishment of a Green New Deal department, and the creation of a Green New Deal task force. The plan should be released by the end of 2026.</p> <p>5. Establish a Green New Deal Department. The department should be responsible for coordinating implementation of the Green New Deal. It should be established by the end of 2027.</p> <p>6. Establish a Green New Deal Task Force. The task force should be responsible for developing a detailed plan for implementing a Green New Deal. It should be established by the end of 2028.</p> <p>7. Establish a Green New Deal Working Group. The working group should be responsible for coordinating implementation of the Green New Deal. It should be established by the end of 2029.</p> <p>8. Establish a Green New Deal Fund. The fund should be responsible for financing implementation of the Green New Deal. It should be established by the end of 2030.</p> <p>9. Establish a Green New Deal Department. The department should be responsible for coordinating implementation of the Green New Deal. It should be established by the end of 2031.</p> <p>10. Establish a Green New Deal Task Force. The task force should be responsible for developing a detailed plan for implementing a Green New Deal. Unit Plan (week 10th)

Unit No.	Unit Title	Unit Objectives	Unit Content	Unit Duration	Unit Assessment
10	Unit 10: Health and Nutrition	1. To understand the importance of a balanced diet. 2. To identify the nutrients in food. 3. To understand the role of diet in maintaining health.	1. Introduction to Nutrition 2. The Role of Diet in Health 3. Nutrients in Food 4. Balanced Diet 5. Diet and Health	10 weeks	100%

The unit plan is designed to provide a comprehensive overview of the unit content. It includes the unit objectives, unit content, unit duration, and unit assessment. The unit objectives are to understand the importance of a balanced diet, to identify the nutrients in food, and to understand the role of diet in maintaining health. The unit content includes the following topics: Introduction to Nutrition, The Role of Diet in Health, Nutrients in Food, Balanced Diet, and Diet and Health. The unit duration is 10 weeks, and the unit assessment is 100%.
