1. The first part of the document is a letter from the author to the editor, explaining the reasons for writing the paper and the objectives of the study.

2. The second part is a literature review, where the author discusses the existing research on the topic and identifies the gaps that the current study aims to fill.

3. The third part is the methodology section, which details the research design, data collection methods, and the statistical techniques used for data analysis.

4. The fourth part is the results section, where the author presents the findings of the study, including descriptive statistics and the results of the statistical tests.

5. The fifth part is the discussion, where the author interprets the results, compares them with the existing literature, and discusses the implications of the findings.

6. The sixth part is the conclusion, where the author summarizes the main findings and provides recommendations for future research.

7. The final part of the document is the references, where the author lists the sources of the literature cited in the paper.
