

BACHELOR OF TECHNOLOGY
CLASS REPORT

Page No. _____

Department of Mechanical Engineering

1. Project Title: Design and Analysis of a Mechanical System

Sl. No.	Topic	Description	Page No.	Total Page No.
1	Introduction	Background and Objectives	1	1
2	Literature Review	Review of existing research and patents	2-3	3
3	Methodology	Design process and analysis techniques	4-5	5
4	Design Details	3D Modeling and Simulation	6-10	10
5	Results and Discussion	Analysis of simulation results and comparison with theoretical models	11-15	15
6	Conclusion	Summary of findings and future work	16	16
7	References	List of sources used in the project	17	17
8	Appendix	Additional data and calculations	18-20	20

100% in Design and Analysis of Mechanical System - 100% in Simulation and Analysis of Mechanical System (100% in Design and Analysis of Mechanical System)
