**Keywords:** child sexual abuse; disclosure; social support

**Abstract**

When a child reaches four years of age, he/she should continue the phase of self-exploration and learning by finding more useful than useless ways to use the world around him/her. This means a child should have the opportunity to explore the world around him/her in a safe and secure environment. This means a child should have the opportunity to explore the world around him/her in a safe and secure environment. This means a child should have the opportunity to explore the world around him/her in a safe and secure environment.

For a more in-depth analysis of how the U.S. courts are applying common-law tort law with respect to medical malpractice, see the article by the author in this issue.
